

Welcome to this CAL!

After months of preparation we're finally off! I hope you're looking forward to it!

To crochet this blanket you will need 16 balls of Stylecraft. If you are using a different yarn be sure to do the math on how much yarn you need. You can do this by counting the yardage. Stylecraft has 295 meters per 100 gram ball. Normally a 4 mm hook is used.

These are the colour numbers and the amount of balls needed.

Rose Scent: 1005 (6) 1065 (2) 1080 (2) 1130 (1) 1218 (2) 1123 (1) 1240 (1) 1023 (1)

Sea Breeze: 1203 (6) 1316 (2) 1034 (2) 1019 (1) 1722 (2) 1725 (1) 1724 (1) 1302 (1)

Morning Dew: 1710 (6) 1027 (2) 1081 (2) 1064 (1) 1420 (2) 1114 (1) 1020 (1) 1712 (1)

Gauge is also very important. Not everyone hooks the same. If your way of crocheting is loose, you will need more yarn than me, if it's tighter, you'll need less. So be sure to check which hook to use. I used a 4 mm hook and my blanket came out 120x180 cm.

If you want one exactly like this you could measure the width. If your blanket is wider, you should use a smaller hook. If your blanket is tighter, use a bigger hook. Then the amount of yarn should be fine.

If you are not changing hook sizes, that's fine too, but remember the possibility that you'll have to get extra yarn.

This is an easy blanket in the way that not every row has a different stitch. On the whole, I like steadiness and rest. You'll also find this in my blanket.

It's a blanket for everyone, both beginners and advanced crocheters.

Underneath you find a conversion-table for the UK and US stitches.

Do you have any questions? I'm sure someone will help you, as there are many people in this group.

I'm hoping for 13 great weeks. Let's all go for it!

Have fun,

Love, Joke
