

Welcome to the second CAL of Lossen & Vasten!

With my first Cal I was completely flabbergasted, and with this one it's just the same! This Cal came to be because of the great demand of you. We weren't even finished crocheting the first Cal and there were already questions of a second. I couldn't believe it at the time but things did start to itch...

And here we are, after months of preparation, ready to begin the second Cal.

To make this blanket you'll be needing a total of 15 balls of Colour Crafter. If you want to make this blanket with different yarn, then you need to calculate the yardage of the amount that you need. A ball of Colour Crafter of 100 grams holds 300 meters of yarn. You are advised to crochet with a 4 mm hook, but you can change this to the hook best suited for you. Of course, this is not obligatory but you must take into account that if you crochet more loosely, you'll need more yarn for your blanket.

The size of my blanket is 120 x 180 centimeter.

These are the colour numbers and the amount of yarn per colour that I used.

Sunset: 6x 2017, 2x 1123, 2x 2018, 2x1240, 1x1711, 2x 841 Velvet

Starry Skies: 6x 2019, 2x 1011, 2x 1708, 2x 1820, 1x 1001, 2x 842 Velvet

Moonlight: 6x 2010, 2x 1081, 2x 1054, 2x 1710, 1x 1114, 2x 851 Velvet

With the yarn packs you also get a label. But only when you buy an original 'Lossen & Vasten' yarn pack. On the Facebook group, with the files, you can find a post with all the points of sale for these packs.

Do you want to make the blanket bigger or smaller, then you can do that by adjusting the starting chain. This has to be devisable by 12 + 2. But you most also take into account that the amount of squares mentioned will be off as well. You'll have to find a way in these yourself, whether to up- or downscale the squares and the amount.

This blanket, just as the first Lossen & Vasten Cal, is simple in the way of, not every row another stitch. I went for the bigger picture here, and I do like regularity and tranquillity. You'll find you'll be seeing very much of this in this blanket.

This is a blanket everyone can make. The beginner crocheter or the more advanced. I try to explain everything as clearly as possible in my patterns and with this Cal there will be a video

on every stitch. This video can be found every week on my website under videos ([www.lossenenvasten.nl/videos](http://www.lossenenvasten.nl/videos)).

Do you have questions? Please ask them! There are many people in this group, surely somebody will be able to answer them.

I'm hoping for another 13 weeks of cosiness! Let's all go for it!  
Enjoy yourselves!!

Love, Joke.
